- I made it using Assembly Language (COAL) this was my final project in COAL course.

PROFESSIONAL EXPERIENCE

Freelancer   (1.5 Year) 2023-24

- Basically, I make projects like Websites, Android apps, Web apps and numerous other Softwares.

- Firstly, I started as a beginner on Fiver, then on Upwork but due to studies and lack of time management, I had to be limited to some specific clients so now my clients communicate directly with me on WhatsApp.

- I also make assignments of Australia and UK University's Computer Science Students.

- Some of my friends also outsource their projects of different niche and I accomplish them.

Artificial Intelligence Community of Pakistan, Lahore, Pakistan (3 Months)

Full Stack Developer   2023

- I utilized my skills of Html, Css, Javascript, Bootstrap in front end of applications remotely.

- I mostly worked on React.js but just a minor work on backend in Mern Technologies.

Code Alpha , India   (3 Months)

Mern Stack Developer   2024

- I grasped strong my skills of Full Stack Web Development remotely.

- I worked on both front end and backend in Mern Stack Technologies.

Web Sops, Lahore, Pakistan **(3 Months)**

Web Developer **2023**

- I learned some skills of Web Development(Front end) on site like Html, Css, Javascript, Bootstrap.
- This was my first experience and I learned a lot new things.
